

SBA's Mixed Plate Workshop: An Entrée to Financing & Contracting

- Loans for working capital with fast turnaround
- Long-term financing to purchase or renovate business real estate or major equipment
- Find out how 8(a), SDB, HubZone and Disadvantaged Business Enterprise (DBE) Certification Programs could work for you

Come meet mainland and local lenders who will explain how small businesses can apply for financing to start and expand their businesses. An SBA representative will discuss the 504 program which provides long-term fixed rate financing for major fixed assets such as land, buildings, and equipment.

This session will be a prelude to finding out about the contracting arena. Please come and meet representatives from State, Federal and private sector organizations who will provide information on the steps needed to expand your business with government contracts. Learn about marketing your small business, government contacts, contracting programs, certifications and the application process for each designation.

Don't wait... our last workshop was standing room only.

Registration Form

(deadline to register Monday, October 24, 2005)

Name _____

Business _____
